DECLARATION UNDER 37 CFR §1.131

I, Brett E. Kugler, do hereby declare that:

1. I am the inventor of United States Patent Application Serial No. 09/895,702 titled "Business Card with Integrated Paper Cell Phone," filed June 29, 2001.

2. I conceived of and worked on the invention claimed in the '702 application while I was an employee of Verifone, Inc., a division of the Hewlett-Packard Company, where I was a software design engineer.

3. Prior to June 21, 2001, I conceived of the invention and prepared the Invention Disclosure shown in Exhibit A that describes the invention claimed in the '702 application.

4. Prior to June 21, 2001, I submitted the invention disclosure shown in Exhibit A to the Patent Department at Hewlett-Packard Company, where it was approved for filing as a patent application.

5. Prior to June 21, 2001, I was contacted by a patent attorney who prepared the '702 patent application.

6. Prior to June 21, 2001, I reviewed a first draft of the '702 application and provided the patent attorney with my comments and changes to it.

7. Sometime between June 21, 2001 and June 29, 2001, I became aware of the Kevin Bonsor article cited by the Examiner, "How Disposable Cell Phones Will Work," which I immediately brought to the attention of the patent attorney.

8. Between June 21, 2001 and June 29, 2001, I was in further contact with the patent attorney by telephone to diligently prepare and finalize the '702 application for filing.

9. During that time the patent attorney revised the application and it was filed in the Patent Office on June 29, 2001.

10. I hereby declare that all statements made herein are my own knowledge and are true, and that all statements made upon information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, under §1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application for any patent that may issue thereon.

A. Description of the construction and operation of the invention (include appropriate schematic, block, & timing diagrams; drawings; samples; graphs; flowcharts; computer listings; test results; etc.)

A printed business card containing wireless paper circuitry for use in calling the number on the card. (Business card combined with paper cell phone).

B. Advantages of the invention over what has been done before.

Ease of use and access to a business via its business cards.
Potential customers can have quick access to business anywhere,
anytime, without need to be near a phone.

C. Problems solved by the invention.

Lack of customer response, reliance on other phone devices,
ease of use without need to read or memorize phone number
of business contact.

My friend's 10 year old handed him a business card, then
held it up to her ear and started talking like it was a phone.
This is the inspiration for the idea.

D. Prior solutions and their disadvantages (if available, attach copies of product literature, technical articles, patents, etc.).
